

UnleashU

Knowledge is Power. We Share Both.

Co-Piloting

Overview

The Co-Pilot service provides tailored assistance, helping you define goals and business objectives, demystify the technologies and processes that lead you towards those goals and creating documentation along the way that gives your organization shared knowledge.

Benefits

Define:	Collaborating so your whole team has an organizational understanding of the next steps.
Demystify	Helping to get you unstuck from that tangled web of tools and processes.
Document	Having a shared vault of insights, understandings and procedures enables your team to move swiftly, efficiently and autonomously. Documentation also empowers new hires to onboard quickly, and gain access to collective knowledge -improving your time-to-value with new employees.

Key Differentiators

Adaptive Expertise:	Unlike standard solutions, our co-pilot service offers adaptive expertise tailored to your specific needs. We don't believe in one-size-fits-all; instead, we customize our approach to align with your unique business challenges and goals.
Collaborative Partnership:	We emphasize a collaborative partnership with our clients. Our co-pilot service is designed to work alongside your team, empowering them with the knowledge and tools they need to succeed.
Proactive Problem-Solving:	Our co-pilot service is not just reactive but proactive. We continuously identify opportunities or challenges within your systems and operations to identify potential issues before they escalate.
Innovative Insights:	Leveraging advanced analytics and industry insights, our co-pilot service provides innovative solutions that go beyond conventional wisdom. We challenge the status quo and uncover hidden opportunities, helping you stay ahead of the competition and continuously innovate in your technology management practices.

Pricing Guidelines

Hours	Rate
Committed Hours (weekly minimum)	\$125.00/hr
Overage Hours	\$150.00/hr
